PALAEO

Contents Volume 143, 1998

Research Papers

Taphonomy of the prosauropod dinosaur *Sellosaurus*, and its implications for carnivore faunas and feeding habits in the Late Triassic
A. Hungerbühler 1

Miocene fish faunas from the northwestern Amazonia basin (Colombia, Peru, Brazil) with evidence of marine incursions
K.A. Monsch 31

Holocene palaeohydrology of Lake Titicaca estimated from an ostracod-based transfer function
P. Mourguiart, T. Corrège, D. Wirrmann, J. Argollo, M.E. Montenegro, M. Pourchet and P. Carbonel 51

Was the climate of the Eemian stable? A quantitative climate reconstruction from seven European pollen records
R. Cheddadi, K. Mamakowa, J. Guiot, J.-L. de Beaulieu, M. Reille, V. Andrieu, W. Granoszewski and O. Peyron 73

Use of micromorphology for palaeoenvironmental interpretation of complex alluvial palaeosols: an example from the Mill Creek Formation (Albian), southwestern Alberta, Canada
P.J. McCarthy, I.P. Martini and D.A. Leckie 87

Pedosedimentary division, rock magnetism and chronology of the loess/palaeosol sequence at Roxolany (Ukraine)
A. Tsatskin, F. Heller, E.A. Hailwood, T.S. Gendler, J. Hus, P. Montgomery, M. Sartori and E.I. Virina 111

Middle Bathonian floras and phytocoenoses of France
M. Philippe, F. Thevenard, G. Barale, S. Ferry and G. Guignard 135

Climatically influenced distribution of *Gymnodinium catenatum* during the past 2000 years in coastal sediments of southern Norway
T.A. Thorsen and B. Dale 159

Opportunistic development of *Ogmoconcha amalthei* (ostracod) in the lower Liassic of Quercy (SW France): an indicator of sedimentary disturbance
A.-M. Bodergat, L. Bonnet, J.-P. Colin, R. Cubaynes and J. Rey 179

Book Reviews

Sedimentary Basins and Petroleum Geology of the Middle East, by A.S. Alsharan and A.E.M. Nairn — M.P. Searle 191

Palaeoecology: Ecosystems, Environment and Evolution, by P.J. Brenchley and D.A.T. Harper — A. Seilacher . . . 192

Arthropods from the Lower Cambrian Chengjiang fauna, southwest China, by Hou Xianguang and Jan Bergström — D.E.G. Briggs 193

Special Issue: The Permian–Triassic Boundary and Global Triassic Correlations. Edited by S.G. Lucas and Yin Hongfu.

Preface
S.G. Lucas and H. Yin 195

Multidisciplinary high-resolution correlation of the Permian–Triassic boundary
H. Yin and J. Tong 199

A refined succession of Changhsingian and Griesbachian neogondolellid conodonts from the Meishan section, candidate of the global stratotype section and point of the Permian–Triassic boundary
S. Mei, K. Zhang and B.R. Wardlaw 213
Some aspects of the Permian–Triassic boundary (PTB) and of the possible causes for the biotic crisis around this boundary
H.W. Kozur 227
The Permian–Triassic boundary in the continental series of Eurasia
V.R. Lozovsky 273
Triassic correlation of the Southeast Asian mainland
V. Khuc and D.T. Huyen 285
The Middle Triassic environstratigraphy of central-south Guizhou, southwest China
J. Tong 293
Lunz flora in the Austrian Alps — a standard for Carnian floras
I.A. Dobruskina 307
Global Triassic tetrapod biostratigraphy and biochronology
S.G. Lucas 347
